

The University of Bahrain Undergraduate Research and Innovation Conference 2026

8th April 2026

Online Conference 

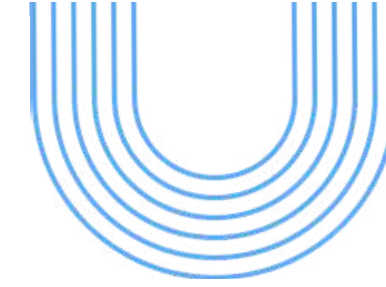

<https://ugric.uob.edu.bh/>

INTRODUCTION

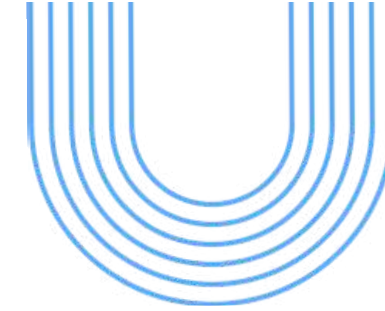

The Undergraduate Research and Innovation Conference 2026, organized by the Deanship of Graduate Studies and Scientific Research, is a strategic initiative implemented to foster a culture of research and innovation among undergraduate students. It provides a dynamic platform for students to present their research, engage in scholarly dialogue, and connect with peers and experts across various disciplines.

This conference aims to empower the students from the University of Bahrain and other local academic institutions by encouraging them to practice scientific inquiry and innovative thinking. It welcomes participation from all academic fields—including STEM, Social Sciences, and Humanities—to facilitate interdisciplinary collaboration.

By showcasing their work, students will not only enhance their research capabilities but also gain exposure to diverse perspectives, build academic networks, and contribute to the broader goal of cultivating a research-driven academic environment. Ultimately, this initiative supports the development of a new generation of researchers and innovators who are equipped to contribute meaningfully to scientific advancement and societal development.

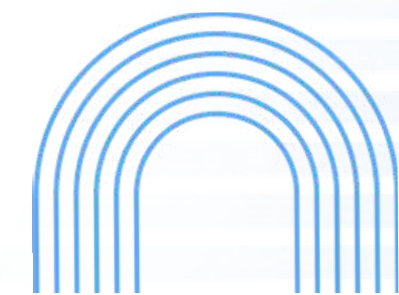

CONFERENCE GOALS

The conference aims to achieve the following goals:

- Inspires and supports undergraduate students in conducting original research and innovative projects.
- Strengthens the culture of scientific inquiry and innovation within the undergraduate community.
- Offers a platform for students to present and discuss their work with peers, faculty, and professionals.
- Fosters interdisciplinary collaboration and communication among students from various colleges and institutions.
- Contributes to the advancement of knowledge and promotes partnerships between academia and the wider community.

TRACKS

The conference will feature nine thematic tracks, each is aligned with the major academic disciplines (colleges) at the University of Bahrain

Engineering track

Innovative Engineering Solutions and Built Environments for a Sustainable Future

Science track

Exploring the Frontiers of Science for the Benefit of Humanity

Information Technology track

ICT for Innovation and Productivity Across Industries

Business track

Business Innovation and Emerging Trends

Arts & Social Sciences track

Creativity and Innovation in Arts and Society

Legal Studies track

Innovative Legal Frameworks for a Just and Equitable Society

Health & Sport Sciences track

Advancing Health and Wellness Through Research and Innovation

Applied Studies track

Applied Research for Real-World Impact

Bahrain Teachers' College track

Innovative Teaching and Learning for a Better Future

KEYNOTE SPEAKER

Dr. Abdulla Isa Alabbasi

Dr. Abdulla Isa Alabbasi is a leading expert in sustainability, energy transition, and AI-driven energy systems, with extensive experience across industry, research, policy development, and strategic implementation. He serves as Director of the Energy and Environmental Studies Program at the Bahrain Center for Strategic, International, and Energy Studies (Derasat), where he leads work on renewable energy integration, climate policy, grid modernization, and decarbonization strategies.

He is the founder of Bahrain's first Artificial Intelligence Renewable Energy (AIRE) Laboratory, a pioneering initiative that applies advanced digital tools and analytics to support energy innovation, infrastructure resilience, and evidence-based policymaking. The lab provides decision-makers with data-driven insights to accelerate the energy transition and align national strategies with global climate objectives.

Dr. Alabbasi has also led and contributed to several international research initiatives in collaboration with organizations such as the United Nations Development Programme (UNDP), universities, and global think tanks. His work reflects a multidisciplinary approach that integrates technology, sustainability, and policy to address the challenges of the global energy transition.

KEYNOTE SPEAKER

Eng. Aysha Alharam

Aysha Alharam is the Chief of the Satellite Department at the Bahrain Space Agency, where she leads national satellite programmes and oversees the development and operation of space missions that support environmental monitoring, innovation, and national development. She has played a central role in managing Bahrain's flagship satellite projects and advancing the Kingdom's capabilities in satellite systems, ground infrastructure, and space data applications.

With a strong background in space systems engineering, Aysha has contributed to international collaborations and represents Bahrain in regional and global space forums. Her work focuses on leveraging satellite technologies to address national priorities, enhance sustainability, and strengthen technological resilience.

She is a member of the Youth Empowerment Committee across both the public and private sectors, contributing to national initiatives that support young leaders and future innovators. Since 2014, she has published more than 55 peer-reviewed scientific papers in the fields of space systems and advanced technologies.

Beyond her technical leadership, Aysha is deeply committed to capacity building and inspiring university students to pursue careers in space, engineering, and emerging technologies.

11:20 - 13:00

Parallel Session A

*10 min each presentation + Chairs's discussion and feedback

Parallel Session A- 1: Theme: **(Applied Studies)** Session Chairs: Dr. Hala Mohammed Hatoum, Dr. Hasan Mohsin Alwadi

Parallel Session A- 2: Theme: **(Business)** Session Chairs: Dr. Mukesh Kumar, Dr. Sumathi Kumaraswamy

Parallel Session A- 3: Theme: **(Information Technology)** Session Chairs: Dr. Ali Hussain Zolait , Dr. Zafrul Allam

Parallel Session A- 4: Theme: **(Arts and Social Sciences)** Session Chairs: Dr. Usman Bashir, Dr. Amani Alhalwachi

Parallel Session A- 5: Theme: **(Engineering)** Session Chairs: Dr. Reem Abbas Sultan, Dr. S.M. Zakir Hossain

Parallel Session A- 6: Theme: **(Health and Sports Sciences)** Session Chairs: Dr. Karim Ben Yahya, Dr. Mustafa Omer

Parallel Session A- 7: Theme: **(Science)** Session Chairs: Prof. Sami Omar, Dr. Mohammed Larbi Labbi

Parallel Session A- 8: Theme: **(Legal Studies)** Session Chairs: Dr. Manal Mohamed AlSayed, Dr. Osama Mahdi Al-Mahdi

13:20 -15:10

Parallel Session B

Parallel Session B- 1: Theme: **(Engineering)** Session Chairs: Prof. Sami Omar, Dr. Ali Hussain Zolait

Parallel Session B- 2: Theme: **(Arts and Social Sciences)** Session Chairs: Dr. Osama Mahdi Almahdi, Dr. Sumathi Kumaraswamy

Parallel Session B- 3: Theme: **(Health and Sports Sciences)** Session Chairs: Dr. Mustafa Omer, Dr. Zohour Ibrahim Rashwan

15:20 - 17:10

Parallel Session C

Parallel Session C- 1: Theme: **(Arts and Social Sciences)** Session Chairs: Dr. Parween Ebrahim, Dr. Zafrul Allam

Parallel Session C- 2: Theme: **(Engineering)** Session Chairs: Dr. Mukesh Kumar, Dr. S.M. Zakir Hossain

Parallel Session C- 3: Theme: **(Health and Sports Sciences)** Session Chairs: Dr. Faten Saad Mahmood, Dr. Toqa Jameel Abbas Busebaia
